

GLBT in RECOVERY

It's no secret that many of us in recovery have made a mess of our finances in the past. Now that we are cleaning up our side of the street and doing next right thing, how does that relate to our finances? How do we start to clean up the wreckage from our past?

John Hoffman of Consumer Credit of Minnesota, will discuss important topics as the importance of saving money, the rules of borrowing, warning signs of debt, credit and debt traps to avoid, and information regarding credit reports. There will be plenty of time for an open question and answer session as well.
